

GoFundMe.com • HELP FIGHT RON'S BRAIN TUMOR

After being sick for months, missing many days of work and completing many tests, our worst nightmare has come true. My dad has a brain tumor. Due to its size and location, a biopsy is not possible; luckily surgery is. Unfortunately, surgery comes with a cost and a three month recovery. My dad has his own business and is the sole support of the family. He has several clients who aren't physically able to come to his barbershop so he goes to their homes at no additional cost. This is just one small example of his kindness. My dad now needs help covering medical and living expenses. Any donation is appreciated. We are grateful to you all. We look forward to seeing him healthy again and meeting his new grandson. Please keep my dad in your prayers!
